

1001 things every college student needs to know

1001 Things Every College Student Needs to Know

1001 things every college student needs to know might sound like an overwhelming number, but when you break down the journey of college life, it becomes clear how many valuable lessons, tips, and hacks there really are. From managing your time and finances to building meaningful relationships and navigating academic challenges, the college experience is packed with opportunities for growth. Whether you're a freshman stepping onto campus for the first time or a senior preparing to graduate, understanding these essential insights can make your years in college not just bearable but truly enriching.

Academic Success: Mastering the Art of Learning

College academics are a whole new ballgame compared to high school. The expectations are higher, the workload heavier, and the stakes greater. Knowing how to approach your studies effectively is a cornerstone of college success.

Time Management and Study Strategies

Balancing classes, assignments, and extracurricular activities requires solid time management skills. One of the most important things every college student needs to know is how to create and stick to a realistic schedule. Using planners or digital calendars to block out study sessions, class times, and personal activities can help prevent last-minute cramming and burnout.

Additionally, adopting active learning techniques—such as summarizing information in your own words, teaching concepts to peers, or using flashcards—can enhance retention and understanding. Don't

hesitate to seek help from professors during office hours or form study groups; collaboration often leads to better grasping complicated subjects.

Understanding Academic Resources

Colleges offer numerous academic resources that many students overlook. Writing centers, tutoring services, and library workshops can provide invaluable support. Knowing where to find these resources early on can drastically improve your academic performance. Also, familiarize yourself with your college's academic policies, including grading systems, withdrawal deadlines, and academic integrity guidelines to avoid unnecessary pitfalls.

Financial Literacy: Managing Money Like a Pro

Managing money is one of the most crucial life skills you'll develop in college. Learning about budgeting, financial aid, and smart spending can prevent stress and help you build a strong financial foundation.

Budgeting Basics for College Students

One of the lesser-known but vital things every college student needs to know is how to budget effectively. Start by tracking your income from part-time jobs, scholarships, or allowances and then list all your expenses, including rent, food, transportation, and entertainment. Apps like Mint or YNAB (You Need A Budget) can simplify this process.

Setting spending limits and distinguishing between needs and wants can help you avoid unnecessary debt. Remember, even small savings on daily coffee or meals can add up over time.

Understanding Student Loans and Credit

While student loans can make college accessible, understanding their terms and long-term implications is crucial. Be sure to know the interest rates, repayment schedules, and options for loan forgiveness or consolidation.

Additionally, building credit responsibly during college by using credit cards wisely can pave the way for future financial opportunities. Avoid maxing out your cards, pay balances on time, and understand the impact of credit scores.

Health and Wellness: Prioritizing Your Mind and Body

College life is fast-paced, often chaotic, and can take a toll on both your physical and mental health. Recognizing the importance of self-care is one of the most overlooked things every college student needs to know.

Maintaining a Balanced Lifestyle

Eating nutritious meals, getting regular exercise, and ensuring sufficient sleep are fundamental to staying energized and focused. While it's tempting to pull all-nighters or skip meals during busy weeks, these habits can backfire.

Many colleges offer fitness centers, wellness workshops, and health counseling services—take advantage of these. Even simple daily habits like taking short breaks during study sessions or practicing mindfulness can improve concentration and reduce stress.

Mental Health Awareness

Mental health is just as important as physical health, yet many students hesitate to seek help. Understanding that feeling overwhelmed, anxious, or homesick is common and treatable is vital. Counseling centers, peer support groups, and online resources are often available on campus.

Building a support network of friends, mentors, and advisors can also provide emotional stability. Don't hesitate to reach out if you're struggling; early intervention can prevent more serious issues.

Social Life and Networking: Building Connections That Matter

College isn't just about classes and exams; it's also a unique time to meet new people and form relationships that can last a lifetime.

Making Friends and Joining Communities

One of the most enriching aspects of college is the diverse community. Joining clubs, sports teams, or student organizations can help you find like-minded peers and develop new interests. It's natural to feel shy at first, but stepping out of your comfort zone often leads to meaningful friendships.

Remember, quality trumps quantity. Focus on cultivating genuine connections rather than trying to be popular.

Networking for Future Opportunities

Building a professional network early on can significantly impact your career prospects. Attend career fairs, join professional associations related to your major, and connect with alumni. LinkedIn is a

powerful tool for maintaining these connections.

Informational interviews and internships are excellent ways to gain insights and demonstrate your commitment to your field. Learning how to communicate effectively and present yourself professionally is another critical skill every college student needs to know.

Life Skills Beyond the Classroom

College is a training ground for adulthood, and mastering essential life skills can make the transition smoother.

Cooking and Nutrition

Eating out or relying on fast food can be expensive and unhealthy. Learning basic cooking skills can save money and improve your diet. Start with simple recipes and gradually experiment with different cuisines. Understanding nutrition labels and meal planning can further enhance your eating habits.

Effective Communication

Whether it's writing emails to professors, collaborating on group projects, or resolving conflicts with roommates, strong communication skills are indispensable. Practice active listening, be clear and respectful in your messages, and don't be afraid to ask for clarification when needed.

Problem-Solving and Adaptability

College life rarely goes exactly as planned. Being flexible and developing problem-solving skills can

help you navigate unexpected challenges—from a tough exam to a sudden change in living arrangements. Embrace failures as learning opportunities and stay open to new experiences.

Technology and Digital Literacy

In today's digital world, staying tech-savvy is no longer optional.

Utilizing Educational Technology

Many courses utilize learning management systems (LMS) like Canvas or Blackboard. Getting comfortable with these platforms, submitting assignments online, and participating in virtual discussions are essential skills.

Additionally, various apps can boost productivity, such as note-taking tools like Evernote or OneNote, citation managers like Zotero, and focus aids like Pomodoro timers.

Staying Safe Online

Digital security is crucial. Use strong, unique passwords, enable two-factor authentication where possible, and be cautious about sharing personal information. Understand the risks of phishing scams and protect your devices with antivirus software.

Exploring Personal Growth and Identity

College is a time to discover who you are and what you value.

Embracing Diversity and Inclusion

Interacting with peers from diverse backgrounds broadens your perspective. Engage in conversations about culture, identity, and social issues with openness and respect. Participating in cultural events or diversity workshops can enrich your experience.

Setting Goals and Reflecting on Progress

Regularly setting short-term and long-term goals helps keep you motivated. Whether it's improving your GPA, learning a new skill, or volunteering, having clear objectives provides direction.

Take time to reflect on your growth and adjust your plans as needed. Journaling or talking with mentors can support this process.

College is a multifaceted adventure filled with countless lessons, experiences, and discoveries. While it's impossible to cover literally 1001 things every college student needs to know in one article, embracing a mindset of curiosity, resilience, and balance will guide you through the challenges and triumphs ahead. Each tip, whether about academics, finances, wellness, or relationships, contributes to building a fulfilling college journey and a strong foundation for the future.

Does '1001 Things Every College Student Needs to Know' offer advice on career planning?

Yes, it advises exploring internships, attending career fairs, building a professional resume, seeking mentorship, and continuously developing skills relevant to desired career paths.

Additional Resources

1001 Things Every College Student Needs to Know: A Comprehensive Guide for Academic and Personal Success

1001 things every college student needs to know encompass a vast array of insights, strategies, and practical advice that collectively can transform the college experience from a daunting challenge into a fulfilling journey. Navigating higher education demands more than just academic prowess; it requires a nuanced understanding of time management, financial literacy, social dynamics, mental health awareness, and career planning. This article delves into the multifaceted knowledge base essential for college students, offering a professional and investigative look at what truly matters beyond the classroom.

Understanding Academic Excellence: Beyond the Classroom

Academic success remains the cornerstone of the college experience, yet it is often surrounded by misconceptions about study habits and learning strategies. Among the 1001 things every college student needs to know, mastering effective study techniques and resource utilization is paramount.

Time Management and Effective Study Techniques

One of the most cited challenges for college students is managing time effectively. According to a

2023 study by the National Survey of Student Engagement, students who implement structured study schedules report a 30% higher GPA on average. Techniques such as the Pomodoro method, spaced repetition, and active recall are scientifically validated approaches that can enhance retention and reduce burnout.

In addition, leveraging campus resources such as tutoring centers, writing labs, and professor office hours can provide targeted support. Many students underestimate the value of these tools, which can often make the difference between struggling and excelling.

Leveraging Technology for Learning

Digital literacy is an integral part of modern education. Utilizing learning management systems (LMS) like Canvas or Blackboard effectively, employing note-taking apps such as Notion or OneNote, and accessing open educational resources (OER) can significantly augment learning outcomes. However, it is critical to balance screen time and avoid digital distractions, which are notorious productivity killers.

Financial Literacy: Managing Money in College

Financial competence is another crucial area within the 1001 things every college student needs to know. With rising tuition costs and living expenses, understanding budgeting, credit management, and financial aid options is essential.

Budgeting and Expense Tracking

Creating and maintaining a budget is often neglected but can prevent unnecessary debt accumulation. Simple tools like Mint or YNAB (You Need a Budget) help students track their spending patterns and identify areas for saving. According to a 2022 survey by the National Endowment for Financial

Education, students who budget regularly experience 40% less financial stress.

Understanding Student Loans and Scholarships

Navigating financial aid is complex. Students must differentiate between federal and private loans, understand interest rates, and be aware of repayment plans. Scholarships and grants, which do not require repayment, should be actively pursued. Websites such as Fastweb and the College Board's Scholarship Search offer robust databases.

Social Dynamics and Campus Life

College is as much a social environment as it is an academic one. The social skills and relationships formed during these years can have a lifelong impact.

Building Meaningful Connections

Joining clubs, fraternities, sororities, or volunteer groups can facilitate networking and provide emotional support. A 2021 report from the American College Health Association highlights that students with strong social connections report higher overall well-being and academic satisfaction.

Balancing Social Life and Academics

While social engagement is beneficial, excessive partying or distraction can undermine academic goals. Developing the ability to prioritize and set boundaries is a nuanced skill that students must cultivate.

Mental Health Awareness and Self-Care

Mental health is increasingly recognized as a vital component of student success. Awareness and proactive management of mental well-being are among the key aspects of the 1001 things every college student needs to know.

Recognizing Stress and Seeking Help

College students face multiple stressors including academic pressure, financial worries, and social challenges. Institutions often provide counseling services, which remain underutilized due to stigma. Normalizing mental health conversations and encouraging early intervention can drastically improve outcomes.

Self-Care Practices

Healthy sleep habits, regular exercise, mindfulness meditation, and balanced nutrition all contribute to mental resilience. According to the Journal of American College Health, students who engage in consistent self-care report a 25% decrease in anxiety symptoms.

Career Planning and Professional Development

Preparing for life after graduation is a critical, often overlooked component of college education.

Internships and Work Experience

Gaining practical experience through internships or part-time jobs helps students apply classroom knowledge and build professional networks. Data from the National Association of Colleges and Employers (NACE) shows that 65% of graduates with internship experience receive job offers within six months of graduation, compared to 45% without.

Resume Building and Interview Skills

Creating a compelling resume and mastering interview techniques are fundamental. Career services offices provide workshops and mock interviews that can refine these skills. Additionally, platforms like LinkedIn offer opportunities for personal branding and networking.

Health and Safety on Campus

Physical well-being and safety awareness form another crucial dimension.

Health Services and Preventative Care

Utilizing campus health centers for routine check-ups and vaccinations can prevent illnesses and promote long-term health. Students should also be informed about sexual health resources and maintain regular health screenings.

Campus Safety Measures

Understanding campus safety protocols, emergency contacts, and self-defense resources is vital. Many universities offer safety apps and escort services, enhancing security, especially during late hours.

Additional Practical Knowledge

Among the 1001 things every college student needs to know are everyday skills that contribute to independence and personal growth.

- **Cooking Basics:** Learning to prepare simple meals can reduce food expenses and improve nutrition.
- **Laundry Tips:** Proper garment care extends clothing life and prevents mishaps.
- **Transportation Options:** Familiarity with public transit, biking, and ride-sharing services can save money and time.
- **Legal Rights:** Awareness of tenant rights, academic policies, and voting regulations empowers students in various situations.

The breadth of 1001 things every college student needs to know reflects the complexity and richness of the collegiate experience. From mastering academic skills to embracing mental health and financial literacy, students who engage holistically with these areas position themselves for success both during and after their college years. This comprehensive knowledge not only prepares students to meet immediate challenges but also equips them with lifelong skills essential in an ever-evolving world.

1001 things every college student needs to know: 1001 Things Every College Student Needs to Know Harry Harrison, 2008-03-18 What things does every college student need to know? In 1001 Things Every College Student Needs to Know, Harry H. Harrison Jr. provides practical advice ranging from classroom enrollment, living on campus, study habits, and more, that every student and parent will benefit from. This book is a solid gift if you know a college student that needs a little wisdom about: Financial advice while attending school Handling parental expectations and being away from home Taking care of your mental health and maintaining your faith Taking and mastering multiple choice tests Creating healthy relationships with your professors Selecting classes, surviving campus life, and writing a college paper Participating in groups and handling various personality types College students will appreciate the author's witty yet relatable tone. 1001 Things Every College Student Needs to Know is a great resource for high school graduates and new college students.

1001 things every college student needs to know: Running from Office Jennifer L. Lawless, Richard L. Fox, 2015-04-08 The past two decades of politics in Washington have seen increased partisanship, prolonged stalemates, and numerous scandals. For today's teenagers and young adults, years of ineffective and inefficient political leadership have completely eroded any sense that politicians or government have the ability to do good or effect positive change. Worse, the mean-spirited, dysfunctional political system that has come to characterize American politics has turned young people off to the idea of running for office. With more than 500,000 elected positions in the United States, what will happen when this generation is expected to take the reins of political power? Through an original, national survey of more than 4,000 high school and college students, as well as more than 100 in-depth interviews, Jennifer L. Lawless and Richard L. Fox find that young Americans feel completely alienated from contemporary politics and express little ambition or aspiration to run for office in the future. The overwhelming majority see nothing particularly noble about those currently in office, viewing most as dishonest, self-interested, and disinterested in helping their constituents. These young people want to improve their communities and enact change in the world; but they don't think politics is the way to achieve these goals. In fact, they look disdainfully upon the prospects of growing up to be a mayor, governor, senator, or even president of the United States. Running from Office explores young people's opinions about contemporary politics and their political ambition (or lack of it). The book paints a political profile of the next generation that should sound alarm bells about the long-term, deeply embedded damage contemporary politics has wrought on U.S. democracy and its youngest citizens. As disheartening as their conclusions sound, Lawless and Fox end with practical suggestions for how new technologies, national service programs, and well-strategized public service campaigns could generate political ambition in young people. Today's high school and college students care deeply about improving the future, and it's not too late to ensure that they view running for office as an effective way to do so.

1001 things every college student needs to know: Teaching to Justice, Citizenship, and Civic Virtue Julia K. Stronks, Gloria Goris Stronks, 2014-09-19 In Teaching to Justice, Citizenship, and Civic Virtue, a group of teachers considers how students learn and what students need in order to figure out what God is requiring of them. The teachers hear from experts in the fields of civic education, the arts, politics, business, technology, and athletics. In addition, they talk about their own learning and what they want students to know about life after high school. This book, along with

its discussion questions, will help parents, teachers, school board members, and administrators talk about what it means to help students work toward God's shalom in a broken but redeemed world.

1001 things every college student needs to know: Knack Dorm Living Casey Lewis, 2010-03-02 Knack Dorm Living, Casey Lewis-herself a college senior at the University of Missouri-provides the guide she searched for, in vain, in her freshman year. She offers invaluable tips on what to pack and what to buy, what to expect, decorating, clothes, and organizing time and money. This is an ideal high school graduation gift for high school seniors-both girls and guys-set to move away from home.

1001 things every college student needs to know: *English for Interacting on Campus* Adrian Wallwork, 2016-03-05 This volume covers the day-to-day activities of a non-native English speaking student carrying out research, attending lectures, socializing, and living in a foreign country. Whether on a US campus as a foreign student, or in a non-English speaking country where classes are given in English, this book will help students build confidence in interacting with professors and fellow students.

1001 things every college student needs to know: Playful Classics Juliette Harrison, Martin Lindner, Luis Unceta Gómez, 2024-10-17 This is the first book to deal exclusively with ludic interactions with classical antiquity – an understudied research area within classical reception studies – that can shed light on current processes of construction and appropriation of the Greco-Roman world. Classical antiquity has, for many years, been sold as a product and consumed in a wide variety of forms of entertainment. As a result, games, playing and playful experiences are a privileged space for the reception of antiquity. Through the medium of games, players, performers and audiences are put into direct contact with the classical past, and encouraged to experience it in a participative, creative and subjective fashion. The chapters in this volume, written by scholars and practitioners, cover a variety of topics and cultural artefacts including toys, board games and video games, as well as immersive experiences such as museums, theme parks and toga parties. The contributors tackle contemporary ludic practices and several papers establish a dialogue between artists and scholars, contrasting and harmonising their different approaches to the role of playfulness. Other chapters explore the educational potential of these manifestations, or their mediating role in shaping our conceptions of ancient Greece and Rome. Altogether, this edited collection is the first to offer a comprehensive overview of the ways we can play with antiquity.

1001 things every college student needs to know: *I'm Outnumbered!* Laura Lee Groves, *I'm Outnumbered!* offers sound advice and encouragement for every mom who has more than one son, even if there's a girl in the mix. Laura Lee Grove's combination of personal anecdotes, authoritative research, and humorous stories will give every outnumbered mom much-needed encouragement, inspiration, and information.

1001 things every college student needs to know: *Yes, You Can Succeed: It Isn't Difficult to Do it IF You Know How to Do It* Charles S. Modlin, MD, MBA, 2021-08-17 As a renowned kidney transplant surgeon and one of a small number of African Americans to hold such a title, Dr. Charles Modlin has overcome enormous odds, roadblocks, and trials. In his book, *It Isn't Difficult to Do It if You Know How to Do It*, he provides an extensive compilation of the successful strategies used to overcome challenges and accomplish his goals in hopes of encouraging high school students and college students whose ambition is to succeed in life. From life in high school through applying and succeeding in college through the beginnings of one's professional years, *It Isn't Difficult to Do It if You Know How to Do It* not only outlines the proven tactics to embrace but also offers navigation around many of the pitfalls that entrap youth and prevent success in college and graduation. This resource is written specifically for ambitious high school students and college students who are aiming to achieve no matter their goals. This book details for the reader the most important guidelines for youth to consider when transitioning from high school to college and beyond that Dr. Modlin has learned from his childhood through medical school and eventually his profession as a kidney transplant surgeon.

1001 things every college student needs to know: *The Other Side of Perfect* Mariko Turk,

2021-05-11 For fans of Sarah Dessen and Mary H.K. Choi, this lyrical and emotionally driven novel follows Alina, a young aspiring dancer who suffers a devastating injury and must face a world without ballet—as well as the darker side of her former dream. Alina Keeler was destined to dance, but then a terrifying fall shatters her leg—and her dreams of a professional ballet career along with it. After a summer healing (translation: eating vast amounts of Cool Ranch Doritos and binging ballet videos on YouTube), she is forced to trade her pre-professional dance classes for normal high school, where she reluctantly joins the school musical. However, rehearsals offer more than she expected—namely Jude, her annoyingly attractive castmate she just might be falling for. But to move forward, Alina must make peace with her past and face the racism she experienced in the dance industry. She wonders what it means to yearn for ballet—something so beautiful, yet so broken. And as broken as she feels, can she ever open her heart to someone else? Touching, romantic, and peppered with humor, this debut novel explores the tenuousness of perfectionism, the possibilities of change, and the importance of raising your voice.

1001 things every college student needs to know: The College Roommate from Hell

Linda Fiore, 2009 Every year, more than 500,000 new students join the ranks of American college students and a good percentage of them stay in student housing. For those who do not stay in student housing, it is almost guaranteed that you will have a roommate at some point in your college career it s a rite of passage. But, for someone who has lived with their parents, in their own room, for 18 years, having a college roommate can be an entirely new experience, especially if that roommate is the roommate from hell. When living in a dorm, you have almost no choice as to who you live with. It could be the nicest person in the world or the your worst enemy. It is that horrible roommate who can ruin your college experience unless you know how to deal with them. This comprehensive guide to everything bad in a roommate is designed to show you how to do just that, providing you with a detailed plan to take on, confront, and handle your problem roommate. You will learn what you should honestly expect from a roommate on the first day and how to tell if part of the problem might arise from you. Learn how to know if your personality types are too different and what you can do to alleviate the stress this might cause. Outlined in detail are common cultural and social differences and multi-step plans for handling each one of them. For those that have issues with confrontation, a special chapter designed to walk you through a calm conversation will help you bring up those concerns that have been nagging at you for weeks. Information on the biggest problems you might encounter with your roommate have been gathered through hours of interviews with college students both new and graduated. Topics such as a roommate using your personal stuff, not cleaning their share, staying up too late, making too much noise, being rude or moody, neglecting to pay their share of the bills, bringing over too many house guests, and dozens more of the most common problems college students encounter with their roommates every year are discussed in this book. Tips for each and every one of these issues and a special chapter on successful communication with a stubborn friend will help guide you through the harrowing maze of trying to fix your roommate from hell. You will learn when a problem roommate may actually have a real problem and how you can help them deal with it. Finally, if things just are not working out, you will learn how you can get help dealing with your roommate and even how you can move out if necessary. If you are pulling out your hair and agonizing over one too many late nights or moldy quarts of milk kicked under your bed, this book is exactly what you have been looking for. Atlantic Publishing is a small, independent publishing company based in Ocala, Florida. Founded over twenty years ago in the company president's garage, Atlantic Publishing has grown to become a renowned resource for non-fiction books. Today, over 450 titles are in print covering subjects such as small business, healthy living, management, finance, careers, and real estate. Atlantic Publishing prides itself on producing award winning, high-quality manuals that give readers up-to-date, pertinent information, real-world examples, and case studies with expert advice. Every book has resources, contact information, and web sites of the products or companies discussed.

1001 things every college student needs to know: Fierce as the Wind Tara Wilson Redd,

2021-06-22 Heartbreak pushes one Hawaiian girl to find her strongest self in this authentic and

emotional story of personal transformation that's perfect for fans of *The Running Dream*. When Miho's boyfriend breaks up with her without warning, all she can see is red--the color of blinding fury and pain, and the color of the fire she sets in an oil drum on the beach, burning every scrap of their memories. It's spring of senior year in Oahu, and while her friends are getting ready for college, Miho's deep in her misery, delivering pizzas on her bike. But then inspiration strikes: she'll do a triathlon. The training is brutal for a girl who has never even run a mile--though she can bike and swim. With the constant support of her friends and her dad, Miho digs deep to find just how fierce her determination is and how many obstacles she can overcome. Acclaimed author Tara Wilson Redd explores the intersections of race and class, and heartbreak and hope, with authentic honesty.

1001 things every college student needs to know: *1001 Things Every Teen Should Know Before They Leave Home (Or Else They'll Come Back)* Harry H. Harrison, 2007-03-18 Adult teens think they're ready to live on their own, but are they? Will they know how to pick a good room mate? Buy a car? Create a budget and actually live on one? From changing the oil to applying for jobs, best-selling author Harry H. Harrison, Jr. has compiled the definitive book for preparing your teen to live on their own. Or else they might come back!

1001 things every college student needs to know: *Life Transitions in America* Francesco Duina, 2014-02-12 We celebrate, talk about, and worry a great deal about transitions in life. Going to college, having a first child, losing a job, and retiring constitute just a few of the pivotal moments in the lives of many. Sociologists and psychologists have devoted considerable attention to life transitions. Yet we know very little about whether there exists a common thread to our understandings of life transitions in general. How do journalists, leading politicians, sport icons, bestselling authors, government agencies, Hallmark cards, popular TV shows, and other "voices" of popular culture talk about transitions in life? Do these voices provide a coherent picture of how we make sense of life transitions? In this book, Francesco Duina shows how the dominant American discourse articulates two basic approaches to transitions in life. The first approach depicts transitions as exciting, individualistic opportunities for new beginnings: the past is cast aside, the future is wide open, and the self has the opportunity to recreate itself anew. The second paints transitions as having to do with continuity, our connections to others, and the life-cycle, with an emphasis on acceptance and adaptation. Though contrasting, the two approaches ultimately complement each other. Their analysis reveals a great deal about American culture and society, and will be of great interest to students of the life course and the sociology of culture.

1001 things every college student needs to know: *1001 Things Everyone Over 55 Should Know* Constance Schrader, 1999 With chapters on everything from lifelong learning to estate planning, and contact information for every organization mentioned, this guide is a must-have for all those interested in aging gracefully.

1001 things every college student needs to know: *Accounts and Papers of the House of Commons* Great Britain. Parliament. House of Commons, 1863

1001 things every college student needs to know: *Congressional Record* United States. Congress, 1971 The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in *The Debates and Proceedings in the Congress of the United States (1789-1824)*, the *Register of Debates in Congress (1824-1837)*, and the *Congressional Globe (1833-1873)*

1001 things every college student needs to know: *Parliamentary Papers* Great Britain. Parliament. House of Commons, 1865

1001 things every college student needs to know: *Resources in Education* , 1976

1001 things every college student needs to know: *Code of Federal Regulations* , 1994

1001 things every college student needs to know: *Congressional Record* United States. Congress, 2006
