Plot Overview and Structure

The Rotters Club centers on three teenage friends—Benjamin Trotter, Philip Chase, and Doug Anderton—navigating the trials of adolescence amid societal upheaval. The narrative unfolds over several years, tracing their educational journeys, family dynamics, and romantic entanglements. Coe employs a multi-perspective structure, allowing readers to witness the same events through varying viewpoints, which enriches the novel's complexity.

the rotters club jonathan coe: *Understanding Jonathan Coe* Merritt Moseley, 2016-07-30 An examination of the life, career, and oeuvre of the British novelist and biographer In *Understanding Jonathan Coe*, the first full-length study of the British novelist, Merritt Moseley surveys a writer whose experimental technique has become increasingly well received and critically admired. Coe is the recipient of the John Llewellyn Rhys Prize, the Prix Medicis, the Priz du Meilleur Livre Entranger, the Bollinger Everyman Wodehouse Prizes for Fiction, and the Samuel Johnson Prize for Nonfiction. His oeuvre includes eleven novels and three biographies—two of famous Hollywood actors Humphrey Bogart and Jimmy Stewart and one of English modernist novelist B. S. Johnson. Following an introductory overview of Coe's life and career, Moseley examines Coe's complex engagement with popular culture, his experimental technique, his political satire, and his broad-canvased depictions of British society. Though his first three books, *An Accidental Woman*, *A Touch of Love*, and *The Dwarves of Death*, received little notice upon publication, Moseley shows

their strengths as literary works and as precursors. In 1994 Coe gained visibility with *What a Carve Up!*, which has remained his most admired and discussed novel. He has since published a postmodern take on sleep disorders and university students, *The House of Sleep*; a two-volume roman-fleuve consisting of *The Rotters' Club* and *The Closed Circle*; a touching account of a lonely woman's life, *The Rain before It Falls*; a satiric vision of a misguided life, *The Terrible Privacy of Maxwell Sim*; and a domestic comedy thriller set at the 1958 world's fair in Brussels, *Expo '58*. Moseley explicates these works and discusses the recurring features of Coe's fiction: political consciousness, a deep artistic concern with the form of fiction, and comedy.

the rotters club jonathan coe: Power in Politics and Academia in Jonathan Coe's Novels Denisa Dumitrascu, 2018-04-18 This book explores the intricate manifestations of contemporary power, its related ideology, and the "resistance" and reaction to the dominant discourse in Jonathan Coe's political fiction, covering the dismantling of the British social-democratic consensus, Thatcherism and Blairism, up to the new ideology of "Globalism." Beyond the predictable dichotomy of support-opposition to power, the book argues the modern individual seems to have found another ontological approach, for which it coins the concept of "intentional unpower". Furthermore, it demonstrates that there are three possibilities regarding the evolution of this type of social response, and invites the readers to discover them, while enjoying Coe's subtlety and humour. Given its broad approach, the book will appeal to researchers in a wide range of domains, including literary and cultural studies, political theory, and sociology, as well as any reader fascinated with the essence of power, intellectual response, and discourses containing their own elements of subversion.

the rotters club jonathan coe: *Characterising Irony* Steven Pattison, 2022-11-24 This book offers a systematic, bottom-up account of irony across both everyday contexts and literary and linguistic texts, using an empirically rigorous approach in distinguishing between central irony, non-central ironies, and non-ironies and highlighting a new way forward for irony research. The volume considers the current landscape of irony, in which the term is used with increasing frequency with the knock-on effect of a loosening of its meaning. Pattison addresses this challenge by applying a systematic form of analysis, rooted in frameworks from pragmatics and complementary disciplines, to a database of over 500 irony candidates from a wide range of sources. The book uses these examples to illustrate the features of central ironies as well as the attributes used to differentiate between central ironies, non-central ironies, and non-ironies. These attributes are mapped across four key domains, including: difference and opposition; the role of context; how ironies are signaled; and speaker attitude and intention. Taken together, the volume puts forth a credible account for more clearly characterizing examples of irony and equips researchers with a comprehensive step-by-step method for undertaking future research. This book is key reading for scholars in stylistics, pragmatics, literary studies, and psycholinguistics.

This volume problematizes the dominance of such alpha cities, offering a wide perspective on 'second cities' and their literature. The volume is divided into three themed sections. the rotters club jonathan coe: *Christmas and the British: A Modern History* Martin Johnes, 2016-10-06 The modern Christmas was made by the Victorians and rooted in their belief in commerce, family and religion. Their rituals and traditions persist to the present day but the festival has also been changed by growing affluence, shifting family structures, greater expectations of happiness and material comfort, technological developments and falling religious belief. Christmas became a battleground for arguments over consumerism, holiday entitlements, social obligations, communal behaviour and the influence of church, state and media. Even in private, it encouraged reflection on social change and the march of time. Amongst those unhappy at the state of the world or their own lives, Christmas could induce much cynicism and even loathing but for a quieter majority it was a happy time, a moment of a joy in a sometimes difficult world that made the festival more than just an integral feature of the calendar: Christmas was one of British culture's emotional high points. Moreover, it was also a testimony to the enduring importance of family, shared values and a common culture in the UK. Martin Johnes shows how Christmas and its traditions have been lived, adapted and thought about in Britain since 1914. *Christmas and the British* is about the festival's social, cultural and economic functions, and its often forgotten status as both the most unusual and important day of the year

the rotters club jonathan coe: *Prequels, Coquels and Sequels in Contemporary Anglophone Fiction* Armelle Parey, 2018-09-03 This book offers to delineate a key phenomenon in contemporary Anglophone fiction: novel expansion, when the plot and characters from a finished novel are retrieved to be developed in new adventures set before, after or during the narrative time of the source-text. If autographic and allographic sequels are almost as old as literature, prequels – that imagine the anteriority of a narrative – and coquels – that develop secondary characters in the same story time as the source-text – are more recent. The overall trend for novel expansion spread in the mid-1980s and 1990s and has since shown no sign of abating. This volume is organised following three types of relationships to the source-texts even if these occasionally combine to produce a more complex structure. This book comprises 11 essays, preceded by an introduction, that examine narrative strategies, aesthetic, ethical and political tendencies underlying these novel expansions. Following the overview provided in the introduction, the reader will find case studies of prequels, coquels and sequels before a final chapter that encompasses them all and more.

the rotters club jonathan coe: *Youth Subcultures in Postwar and Contemporary Fiction* Nick Bentley, 2025-04-30 This book offers a unique interdisciplinary examination of how youth subcultures have been articulated and constructed in selected fiction from the post-war period to the twenty-first century. It provides a theoretical underpinning for the analysis of subcultures and scenes in literary fiction, identifying approaches set against key theories from subcultural studies, sociology, and criminology as well as paying close attention to issues of literary form, genre and narrative technique. As well as identifying an overlooked body of work in postwar and contemporary fiction, it shows how literary fiction can offer a distinctive contribution to our understanding of youth and marginalized cultures. It offers close analysis of a range of novels organized around key themes and contexts including teenagers, Teds and jazz scenes in the 1950s; Beat writing and the counterculture; punk fiction; dystopian and cyberpunk fiction as well as the examination of works that foreground class, race, gender and sexuality.
