mlp friendship is magic part 2: *The Animated Dad* Lorin Shahinian, Leslie Salas, 2024-01-11 The Homer Simpson-esque stereotype has been a persistent trope in cartoons since programming aimed directly at children and adolescents began. Young viewers are exposed to the incapable and incompetent hapless father archetype on a regular basis, causing both boys and girls to expect the bare minimum of fathers while mothers hold the responsibility for all domestic and parenting work. Cartoons rely heavily on toxic stereotypes for ratings, when in fact, healthy representations of fathers are just as successful in maintaining viewership. Eleven essays, written by scholars from

around the world, investigate the topic of fatherhood as it is represented in children's animated television shows. Main themes that emerge include absent and negligent fathers, single fathers, generational shifts within families, and raising the standard of fathering by creating secure bonds between father and child. The authors uncover problematic fathers, imperfect yet redemptive fathers, and fathers who embody idealized parenting traits through some of our most beloved animated dads. This collection demonstrates the impact that media representations of father figures have on young viewers and argues for better role models.

mlp friendship is magic part 2: Fiction, Invention and Hyper-reality Carole M. Cusack, Pavol Kosnák, 2016-11-18 The twentieth century was a period of rapid change for religion. Secularisation resulted in a dramatic fall in church attendance in the West, and the 1950s and 1960s saw the introduction of new religions including the International Society for Krishna Consciousness (ISKCON), the Church of Scientology, and the Children of God. New religions were regarded with suspicion by society in general and Religious Studies scholars alike until the 1990s, when the emergence of a second generation of 'new new' religions - based on popular cultural forms including films, novels, computer games and comic books - and highly individualistic spiritualities confirmed the utter transformation of the religio-spiritual landscape. Indeed, Scientology and ISKCON appeared almost traditional and conservative when compared to the radically de-institutionalised, eclectic, parodic, fun-loving and experimental fiction-based, invented and hyper-real religions. In this book, scholarly treatments of cutting-edge religious and spiritual trends are brought into conversation with contributions by representatives of Dudeism, the Church of All Worlds, the Temple of the Jedi Order and Tolkien spirituality groups. This book will simultaneously entertain, shock, challenge and delight scholars of religious studies, as well as those with a wider interest in new religious movements.
